My local AirOne station serves me by providing alternative Christian music for me and my family to enjoy. I believe that if the station is eliminated, it will be a sad and disappointing day for the entire community. The service provided is in the public interest because it brings so many people to the Lord everyday. It is a great place of worship and functions much like any other church. In that regard, it is a very important part of a Christian's life in this area. I pray that my AirOne station will not be replaced and that it will continue to touch more lives. Thank you and God Bless.
